Golden West College

HEALTH INFORMATION TECHNOLOGY PROGRAM

Starting in **Fall 2021**, Golden West College will be offering courses for individuals to get started on their journey toward a Healthcare Information Management (HIM) career. Demand for HIM professionals is on the rise and is one of the fastest-growing careers in the healthcare industry. HIM professionals may work in diverse healthcare environments and have an aptitude for science, management, law, and technology. According to the Orange County Business Council, Medicals Records and Health Information Technician is one of the largest Healthcare IT occupations with a faster than average job growth.

The Health Information Technology program at Golden West College may be completed in only three semesters (Fall, Spring, Summer) for a total of 24 units.

Connect with one of our GWC counselors to get started this Fall 2021!
